

# Your Health Insurance:

GET HELP PAYING FOR IT.

FROM |  sunshine health.™

# Saving money starts here.

You deserve health insurance that fits your health needs and your budget. And with an Ambetter Marketplace plan, you may be able to get a healthcare subsidy. A subsidy is an amount of money, or tax credit, from the government. It helps lower your monthly premium. Let's take a closer look at how a subsidy works.

Example only. Based on your situation and the plan you select, your premium amount may be different.

## Meet the Smith family.

They're shopping for a health insurance plan.

Smith family example is two parents (30 years old) and two children under 21 years.

The Smiths make \$35,250 per year, which means they are at **150%** of the Federal Poverty Level. So, they qualify for a subsidy.

Without their subsidy, the Smiths would have to pay **\$9,288**

a year for a silver insurance plan.

Because of their subsidy, the Smith family only pays

**\$1,404**

a year for a silver insurance plan.

**\$8,000\***

a year

\*actual savings \$7,884

# How much could you save?

Use the examples on the graph to find out how much of a subsidy you could get this year.

- 1 Look at the family situation that is most like yours.
